PROFILE

A skilled visual communicator, proficient in all applicable design software, astute, and passionate graphic designer. Desire to obtain employment in the motion graphics and corporate branding fields. Forward thinking problem solver seeking an opportunity to develop and partner with an organization that encourages creativity, relationship building, and exceed client expectations for the industry.

EXPERIENCE

Web Developer | Lancaster, Kentucky - School District (2006 - 2009)

Designed, developed and maintained the district's website system. Learned the basics of front-end web development and built the structure and page layout for entire system. Educated on creating streamlined workflow, content organization and file optimization.

Director, Editor, Cameraman | Lexington, Kentucky - Keep It Real (2006 - 2009)

Shot and produced three, 30-second television commercials highlighting the dangers of underage drinking. These clips aired during the Super Bowl on local cable, exercising the fundamentals of broadcast-safe designs and effective message delivery.

Producer, Editor, Cameraman | City of Lancaster, Kentucky (2008 - 2009)

Worked directly with the Economic Development Office to produce a tourism spot for Garrard County. This ongoing, 2-year project stimulated networking with a broad range of people, from politicians and celebrities to local members of the community.
